Please ensure this tracking sheet is completed as a group, as it will be used to monitor your individual participation within the team.						
Team Members	**Role/ Responsibilty**	**Email**				
Alieu O Jobe (GitHub: Jobealieu)	Part 1: EM algorithm (code, tests, notebook, README); root README and final integration	a.jobe@alustudent.com				
Igor Ntwali (GitHub: igorntwari)	Part 2: Bayesian probability on IMDb reviews; Part 4: gradient descent in code with SciPy; repository owner	i.ntwali@alustudent.com				
Gatete Derrick (GitHub: nshutiderrick)	Part 3: gradient descent manual calculations (handwritten PDF)	d.gatete@alustudent.com				

Task Allocation and Tracker

	Task Allocated	Assigned Member	Deadline	Completion Status (Not Started/In Progress/Completed/Did not participate)	Reviewed by Team? (Yes/No)	Comments
1	Part 1: EM algorithm from scratch, 13 unit tests, notebook with tracking table and live posterior demo	Alieu O Jobe	21 Oct 2026	Completed	Yes	PR #2 merged; commits 4e873d9, fae6aa8, 5ff8e0a, 177e8ed
2	Part 1: make notebook runnable on Google Colab	Alieu O Jobe	21 Oct 2026	Completed	Yes	PR #3 merged; commit 3242a7b
3	Repository setup, .gitignore, Part 2 Bayes keyword module (basic Python only)	Igor Ntwali	21 Oct 2026	Completed	Yes	PR #1 merged; commits ecff798, 3638558, cf91c1a
4	Part 2: notebook with keyword justification, probability table, verification and chart	Igor Ntwali	25 Oct 2026	Completed	Yes	PR #4 merged; commits 76db743, 373bf91

5	Part 3: manual gradient descent, 3 updates with derivation, one update labelled per member, trend summary (handwritten PDF)	Gatete Derrick	26 Oct 2026	Completed	Yes	Commits 5732c6c, 3ccf182 (typo fixed, updates labelled), 6032a59 (trend summary page added)
6	Part 4: gradient descent in code, SciPy derivative function, parameter and error plots	Igor Ntwali	26 Oct 2026	Completed	Yes	PR #5 merged; commits 15be985, b3630aa; output matches Part 3 exactly
7	Root README, root requirements, combined notebook running all four parts, final repository check	Alieu O Jobe	26 Oct 2026	Completed	Yes	PR #6 merged; commits 6e9a815, 261c83d
8	Run Part 2 notebook so outputs and chart are committed; remove draft notes from Part 2 and Part 4 notebooks	Alieu O Jobe	26 Oct 2026	Completed	Yes	PR #6 merged; commit 2290b02. Part 2 code by Igor Ntwali, results reproduced exactly
9	Book presentation slot and add all members to the invite	Whole team	29 Oct 2026	Completed	Yes	Booked: Thu 29 Oct 2026, 3:00 to 3:15 pm CAT, Google Meet; Igor, Derrick and Alieu all on the invite

Meeting Attendance Log

Meeting Date	Agenda	Facilitator	Attendees	Key Discussion Points	Next Steps	
16 Oct 2026	Kickoff: read the brief and rubric, split the work	Igor Ntwali	Igor Ntwali, Gatete Derrick, Alieu O Jobe	Went through all four parts and the rubric. Agreed one part per member: Part 1 Alieu, Part 2 Igor, Part 3 Derrick, Part 4 together. For Part 1, chose fathers vs children.	Igor creates the team repository; each member starts research on their part	
21 Oct 2026	Repository workflow and Part 3 assumptions	Igor Ntwali	Igor Ntwali, Gatete Derrick, Alieu O Jobe	Igor set up the repo and merged the Part 2 module (PR #1). Agreed a branch and pull request workflow. Agreed Part 3 assumptions: y_hat = Xm + b, b one entry per point, learning rate 0.01, MSE with 1/n.	Alieu pushes Part 1; Derrick starts the manual calculations	

22 Oct 2026	Part 1 review	Alieu O Jobe	Igor Ntwali, Gatete Derrick, Alieu O Jobe	Alieu presented Part 1 (PR #2, #3): why splitting at the global mean is wrong, the tracking table, and the finding that EM separates women from men because the children are both sexes.	Igor finalises Part 2 keywords; everyone reads the Part 1 notebook	
23 Oct 2026	Part 2 keyword choice	Igor Ntwali	Igor Ntwali, Gatete Derrick, Alieu O Jobe	Chose 4 positive and 4 negative keywords that are frequent and meaningful on their own. Agreed to compute only P(Positive | keyword) with basic Python.	Igor writes the Part 2 notebook with keyword reasons and verification	
24 Oct 2026	Part 3 progress and Part 4 plan	Gatete Derrick	Igor Ntwali, Gatete Derrick, Alieu O Jobe	Checked the three manual updates against each other. Planned Part 4: match Part 3 digit for digit, use scipy. differentiate (scipy.misc. derivative was removed in SciPy 1.12), plot m, b and the error.	Derrick finishes the handwritten updates; Igor starts Part 4 code	
25 Oct 2026	Part 2 review and cross part understanding	Igor Ntwali	Igor Ntwali, Gatete Derrick, Alieu O Jobe	Igor presented the Part 2 notebook (PR #4). Each member explained their part so everyone can answer questions on all parts.	Igor finishes Part 4; Derrick prepares the Part 3 PDF	
26 Oct 2026	Final review before submission	Alieu O Jobe	Igor Ntwali, Gatete Derrick, Alieu O Jobe	Part 4 merged (PR #5) and matches Part 3 exactly. Part 3 PDF reviewed: derivation typo fixed, updates labelled per member, trend summary added. Root README, combined notebook and Part 2 outputs merged (PR #6). Presentation slot booked for 29 Oct.	Submit by 23:59 tonight; rehearse for the 29 Oct presentation
